IMPORTANT IMPROVEMENTS TO BE MADE BY FRANK'S OWNERS.

TOWN MAY CELEBRATE

March of "Fido" and Citizens Meetings Held Sunday Evening - Effort To Be Made to Visit New-Spokane Last Train stop at Frank.

Matters of importance to the people of Frank were discussed at a meeting of the board of trade and a citizens meeting held at Masonic Hall Monday evening. As a result of the meeting the overseer will proceed at once to improve Dominion avenue and the road leading out of Frank through the slide, the board will open negotiations to secure a stop of the Soo-Spokane last train at Frank and a movement was initiated to endeavor to arrange for a celebration at Frank on Labor Day to be conducted jointly by the Frank fire brigade and the miners union.

At the board of trade meeting, H. E. Lyon was first elected to membership. The next matter taken up was the subject of opening negotiations looking to the securing of a stop of the last train. During the discussion of the subject, Agent Wm. Somerton of the C.P.R. stated that he thought it doubtful that a stop could be secured, that he had been in communication with one of his superiors on the subject and had been informed that the present arrangement was in the nature of an experiment to determine whether the engine hauling the train could make the run from Lethbridge to Cranbrook, that it was considered doubtful that the engine could be so run.

It was suggested that it is not probable that it would become necessary to change engines at Cherry New; that in any event, the train have to stop at Cherry New owing to the fact that that point is a division and there is a change of dispatchers which renders it absolutely necessary to stop there for orders.

Although Mr. Somerton's statement had a discouraging effect, it was felt that nothing could be lost by taking the matter up with the railway officials and the executive was instructed to open correspondence immediately. To provide for the eventually that the board might wish to lay the case before the railway commission in the event nothing can be done with the railway officials, the secretary was instructed to communicate with the commission which is now on the way west, asking that the commission visit Frank before returning east.

Overseer Farmer called up the subject of improving Dominion avenue and said that inasmuch as the main portion of the business street had just been graded it could be put into first class condition by covering the gravel with coke oven breeze. He stated that he could get the material from Lille at small cost and said that if the property owners would make their wishes known through resolution of the board, he would act accordingly. After considerable discussion a resolution was adopted recommending that the overseer proceed to expend such money as is available, in the manner outlined. It was further suggested that the road out of town which is overgrown by Gold Creek, be repaired and the overseer announced he would attend to the matter.

After the adjournment of the board meeting Overseer Farmer called a citizens meeting to consider holding a celebration on Labor Day. Representatives of the miners union and of the Pass Tuff association were present by invitation. The latter suggested a change of date as the tuff association holds its annual Pass plate meeting on Labor Day. Nothing came of these representations as the miners felt they could not give away owing to Labor Day being the only day on which all the camps would be idle, allowing the men from all the camps of the district to participate. The proposal for the miners union and farmers to join hands in holding

the celebration and divide the earnings was then made but the representatives of the union had no authority to act for the union and it was arranged that a committee of the union and one of the citizens and farmers should meet Sunday while the union meeting is in session to permit of the union as a body passing on the proposal.

Against this proposal, it is universally felt among the business men who will be expected to subscribe the bulk of the funds, that inasmuch as the firemen were the first to propose holding sports, the fire department should be allowed to share in the benefits as a matter of fairness.

TO ANALYZE SPRINGS WATER

A visitor to Frank Tuesday, whose coming may be of considerable future importance to the town, was Dr. J. A. McArthur of Ottawa, an expert on the subject of mineral waters. Dr. McArthur, who has reported on the waters of nearly all the famous mineral springs of the European and American continents, was here for the purpose of obtaining a sample of the water of the sulphur springs at the Sanitarium for analysis. His visit was at the instance of the Canadian Pacific Railway company which has sent him over all the western lines to report on the waters of all mineral springs on or adjacent to any of its lines.

To THE FRANK, Frank Dr. McArthur stated that the Sanitarium springs are unique in his experience and he expressed great interest in the fact that a proper analysis has not been provided. He said that from what he was able to judge, the analysis he believed would prove very fine. He conducted an analysis of the water of the springs at the Sanitarium for a Sanitarium and expressed the hope that it would be preserved and that the new future would see a suitable Sanitarium established there.

Dr. McArthur was profoundly impressed with this locality and spent the day, most enjoyably, he said, tramping about seeing the valley and the slide.

Cement Plant to Blainmore.

Blainmore is now to be favored by the location there of the plant of the Rocky Mountain Cement company, according to the latest announcement Messrs J. H. Budd and W. B. Holley of the company visited The Pass Saturday, when the announcement was made. It was said that inasmuch as Frank did not respond to the request for tax exemption, bonus, sale of bonds etc in the manner expected, it was decided to go to Blainmore where it is stated the subscriptions for bonds was liberal. At all events, the announcement was made that the company had bought the pelletier property at a \$1000 an acre. It was further announced that work would start between the first and fifteenth of August. Some persons in the district affect to believe that the company has a very indefinite idea where it will locate even if it comes at all and that it is playing one town against the other in the hope of gaining some sort of an advantage. It is worthy of note that no attempt to induce the people of Blainmore to grant tax exemption or a bonus has been made.

Big Race Labor Day.

The Pass Tuff association is planning for the biggest meet yet on the occasion of its Labor Day meeting. Capt. W. A. Beebe and D. C. Drain, directors of the association, who visit the Calgary races last week, said that many of the owners of the best horses on the big circuit expressed an intention of coming to Blainmore and there is no doubt the meeting will be the best and most successful yet held. The Pass Plate, the annual event for that day, is attracting much attention and the indications are that some of the finest blood in horse royalty of this country will be represented in it.

LILLE GOES ON STRIKE

DISPUTE OVER BACK-HAND CLOSER WEST CANADIAN CAMP.

MAY PROVE SERIOUS

Island Company May Institute Prosecution for Violating Labor Disputes Act—Given Opportunity to tie to Work Pending Arbitration.

The Lille camp of the West Canadian Collieries company was closed down Monday morning by a strike of the employees of the company at that place. The difficulty arises out of the back-hand system which has been in vogue at Lille the past two years. Some of the men are in favor of the system while a majority desire it abolished. A vote was taken in the Lille union Sunday resulting in a majority in favor of doing away with the system and in consequence some of the men went to work Monday morning. The company claims the action was taken without any notice being given.

Under the new agreement the back-hand system is made optional with the men in any camp. The company interprets the clause to mean that it is optional with the individual miner whether he shall work with a back hand or not. The company favors the system for the reason that, as one of its officials states, the number of competent miners in the camp is small, the great majority being men who have not worked in coal mines long enough to become efficient miners. For this reason the company is desirous to seek to greater advantage by distributing the efficient miners through the different places, each having an unexperienced man as helper or back-hand. It also favors the system for the reason that no qualified miner likes to do the shoveling and other work of the back hand and for that reason two miners rarely get along well working as partners.

Working the back-hand system, the miner pays his own back-hand. Under the other system, partners share the earnings. It is claimed the experienced miners of the camp desire to work back-hand while the men working as back-hands want to share equally. These, it is said, are supported by the drivers and other classes of workmen in the union and thereby gained the majority in the voting. The union by the vote taken, holds to the interpretation of the back-hand clause, that it is optional with the majority whether the back-hand shall be followed and not optional with the individual as the company contends.

The company takes the position that the question can only be settled by reference to the arbitration committee provided for in the agreement and that in quitting work before such reference had been made, the men violated their agreement.

Superintendent W. P. Williams gave the men the opportunity of returning to work pending arbitration of the question under the arbitration clause and failing to do so, it was said yesterday that prosecutions would follow.

Notice of Dividend

NOTICE is hereby given that the International Coal & Coke company, Limited, will upon August 1, 1907, pay a dividend of one cent and one-half (1 1/2) per cent on its issued and outstanding capital stock. Said dividend will be paid to the persons in whose names the stock stands at the close of the transfer books of the company. The transfer books will be closed from July 16, 1907, to August 1, 1907, both days inclusive. Any person holding stock that has not been transferred to his name should send such stock, before the first mentioned date, to the secretary at the office of the company, Forewell Building, Spokane, Washington. Dated at Spokane, Washington, June 28th, 1907.

W. G. Graves,
Secretary, International Coal & Coke company, Ltd.

THURSDAY, JULY 18, 1907.

Can Stop well as Not.

Amest the subject of the sudden vote to be made by the board of trade to get the Spokane flyer to stop here, some information is at hand that ought to have an important bearing on the matter. When we advertised to the subject last week we were under the impression that the train stopped at Crows Nest to take water but were not certain, nor were we able to ascertain definitely whether a change of engines is made there. We can at this time state authoritatively that the train does stop at Crows Nest for water and that no change of engines is made. Passengers who have come to Frank on the fast train are authority for the statement that the engine is obliged to run in on a siding at Crows Nest to take water and that the time consumed in taking water at Crows Nest is greater than would be required to stop at the station at Frank and take water also as the tank here is on the main line. This information reinforces our argument of last week in favor of substituting a stop at Frank for that at Crows Nest. One would think, in view of these facts, that it would be a matter of very small difficulty to induce the C.P.R. to rearrange its schedule to provide for such a change.

We have heard it said that the main reason the train does not stop in The Pass is that the C.P.R. does not want the train to interfere with the local business of the regular passenger train. We do not think that can be true or that it would be sufficient reason to prompt the officials of the C.P.R. to so discriminate against a district of so much importance as The Pass. No we are not yet ready to believe the officials of the C.P.R. are such a peccanish lot and really we anticipate that there will be very little difficulty in getting a rearrangement of the schedule when Mr. Whyte is made to fully realize what a serious discrimination and what a very great inconvenience the failure of the train to stop in The Pass really is.

The proposal to hold a celebration in Frank, either on Labor Day or late in August, under the auspices of the Frank fire brigade is being talked up and is likely to be a go. This paper hopes the people of Frank will lend every assistance to the members of the brigade and thus assure the success of the undertaking. The fire department is in need of many things which the village is unable to provide this year and if a successful celebration is held there ought to accrue to the brigade a sum sufficient to provide these necessities. Among the supplies of which the department stands in need are rubber coats, boots, helmets, lanterns, axes etc and they are pretty nearly as badly needed as is the apparatus itself. Under the leadership of Chief McGowan the department has been brought to a state of efficiency that is a credit to the town. The members of the brigade are taking the most commendable interest in their work and deserve every encouragement to go on improving. We believe the town can do nothing to better promote interest and encourage the boys to go on improving than to accept a measure of providing a fund to properly equip the department and

keep it on a proper footing. We do not think a better means of doing that presents itself than the celebration proposed and we therefore hope there will be the heartiest co operation from all sides with the members of the brigade.

SYNOPSIS OF CANADIAN NORTH-WEST

HOMESTEAD REGULATIONS

Any area unoccupied section of Dominion

Land in Manitoba, Saskatchewan and

Alberta, excepting 80 and 80, and reserved, may be

homesteaded by any person who is the head of a family or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situated.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months residence upon and cultivation of the land in each year of the first year.

(2) If the father (or the mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for settlement so to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

W. W. Coss,
Deputy of the Minister of the Interior.

During the remainder of July we will offer the genuine Rogers 1847 Silverware at the following special prices in any quantity:

HE INJURED THE PUBLIC INTEREST

At a recent sitting of the supreme court at Lethbridge George S. Hoagland, of Taber, was fined two hundred dollars and costs by Justice Harvey for occasioning injury to a public interest. Hoagland published a false tale in an advertisement, as follows: "Americans not wanted in Canada; investigate before buying land or taking homesteads in this country."

This is probably the only case of the kind ever tried in Canada. Hoagland published the defamatory notice out of spite because the Taber authorities would not permit him to conduct a business without paying a license which was subject to license.

NOTICE

Notice is hereby given that in accordance with the provisions of the North West Irrigated Act, 1898, and amendments thereto, the undersigned have filed the memorial and plans required by Section 11 of the said Act, with the Commissioner of Irrigation, at Calgary.

The applicants apply for the right to divert sufficient water per second from Oldman river on the north east quarter of section 25, township 7, range 2, west of the 5th meridian, for other purposes, and for the right to construct the necessary works as shown by the memorial and plans filed to enable the water so diverted to be used for the said other purposes on the said north east quarter of sec-

tion 25.
The following lands are also affected by right of way for the proposed works, viz: Legal Subdivisions, one, eight, nine and sixteen of said section 25.

Frank News in Brief

Buy your clothing of A. V. Lang.

A. Goyette, Frank, Alberta, dealer in furniture and wall paper.

The gun club got in a new trap yesterday.

A. F. Grady has sold out his Coleman branch to a firm to be known as the Coleman Hardware company of which J. E. Hill is manager.

Overseer Farmer has let the contract to build the sidewalks provided for this season, to Fryer & Sinclair and the work of putting down the walks is now in progress.

The Herald of Calgary has discontinued its morning edition, leaving Calgary with three dailies, still one more than the town can stand, that is, support properly.

In the match race at the Blairmore track Tuesday afternoon between John Strickland's Fox and T. & B., Fox won with ridiculous ease, beating the old timer by nearly half the distance in the quarter mile dash.

Overseer Farmer is in receipt of a reply to his invitation to the Spokane Chamber of Commerce to visit Frank while on its excursion to Canada, stating that the excursion has been deferred indefinitely.

Sunday Services—Bellerose—Sunday School at 2 p.m., preaching services at 3 p.m., Frank—Sunday school at 2 p.m., preaching services, at 7:30 p.m. We extend a hearty welcome to all.

H. Hadden, pastor.

Dr. Weagant dentist will visit professionally Frank July 19th, 20th and 21st, at the Imperial hotel; Blairmore July 22nd and 23d, at the Blairmore hotel; Coleman July 24th, 25th and 26th at the Coleman hotel, where he is prepared to do all kinds of dentistry.

There will be two more races at the Blairmore track next Wednesday T. & B. and Fox will meet again. Harry Hudson not being satisfied with the last race. The other event will be between Hardman's Violet and the buckskin pony of D. X. Drain of Blairmore. It is a party event, both animals being under twelve hands.

At the last meeting of the Frank Fire Brigade a vote of thanks to Chief Frank Graham of Coleman for his courteous treatment of the members of the brigade at the recent celebration was passed. Thanks were also voted to those responsible for the dance given in aid of the brigade funds. The chief was instructed to purchase five rubber coats, there being money enough in the treasury to provide that number.

Mr. and Mrs. Silverman are home from their trip to Montana.

The fast train stopped in Frank for water yesterday morning.

C. W. Bowker, manager of the "41" Market interests, came up from Pincher yesterday.

Miss Nita Chaffield of Macleod is visiting her sister, Mrs. Harry Murphy.

Mr. and Mrs. Samuel McVicar returned Thursday morning last from their honeymoon trip.

Faber, about a third as large as Frank, has been incorporated as a town and the election to choose the first town council has been called.

H. B. Shaw, superintendent of western branches and Ph. Vibert, inspector, for the Union Bank, visited Frank and Blairmore Sunday.

Dr. Macdonald has completed the installation of an X Ray apparatus in his hospital for the examination of complicated injuries.

C. D. McHae took his final departure Tuesday evening for pastures new. He goes to the coast via Calgary and thence to the line of the new railroad.

F. M. Collins, Jack Robertson and Norman Fraser, provincial coal mine inspector, went down the river fishing at the week end. They brought back 56 trout, the best fly fishing thus far reported.

Herbert Silverman, brother of Vice President J. E. Silverman of the coal company, who is mining engineer for one of the big Montana mining companies, visited Frank this week to inspect the plans and work under way for the further development of the Frank mine.

It was reported the first of the week that the Hilerest mine would resume operations to-day. It was stated to be the intention to start Monday and the new conveyor was tested Sunday with that idea but some minor defect delayed matters. It is stated that the men return to work at days pay pending arbitration of a new schedule.

The Maple Leaf coal company which started development operations at the Westworth ranch below Bellerose two weeks ago, has its tunnel in about forty feet in a seam of coal that is showing very fine. The right of way for the tunnel to the rail road has been cut and the contract for its construction will likely be let in a few days. Manager F. Thompson left for Spokane the last of the week and is expected back very shortly.

George Jackson of Blairmore has been appointed a game guardian. The appointment is gazetted in the last number of the Alberta Gazette.

The statement has been published and is not contradicted, that Jim Hill has secured a majority of the stock of the Crown Nest Pass Coal company of Fernia.
